

### Billet Aluminum Mounting Accessories

Billet Mounting Accessory	Polished	Brushed
Band clamp for HG100R/B/C and MX100R/B/C	BB100P	BB100B
Band clamp for HG250R/B/C and MX250R/B/C	BB250P	BB250B
Flat surface mount	BMF01P	BMF01B
1 5/8 in. Roll bar mount (fits roll bars with 5.1" circumference)	BMR01P	BMR01B
1 3/4 in. Roll bar mount (fits roll bars with 5.5" circumference)	BMR02P	BMR02B
2 in. Roll bar mount (fits roll bars with 6.3" circumference)	BMR03P	BMR03B
2 1/4 in. Roll bar mount (fits roll bars with 7.1" circumference)	BMR04P	BMR04B

Our quick-release billet aluminum mounting brackets are accepted by most race-sanctioning bodies and clubs, including NHRA, IHRA, NMCA, NMRA, NSRA and MTRA. Band clamps fit 2.6" and 3" diameter cylinders, and can be combined with the flat surface or roll bar mounts. Available in polished and brushed finishes. Note: Clamps and mounts must be used together. First, choose the right size band clamp for your fire extinguisher, then choose a flat-surface mount or a roll-bar mount. One year limited warranty.

# Protect Your Passion!

## Don't Get Caught Between a Rock and a Hot Place!

### All the Sizzle without the Flames!

Smooth lines. Exciting colors. Cool textures. H3R Performance excites the senses while easing the mind. Made with pride in the USA in an ISO 14001 and ISO 9001 certified facility, our fire extinguishers are designed to meet the exacting demands of the automotive environment. They are made with rugged, drawn steel cylinders coated in a corrosion-resistant chrome, black or red finish. And you won't find plastic used for important components. Our standard brackets are steel; valves are anodized aluminum or chrome-plated brass, and handles are aluminum or forged steel. Our optional quick-release, aircraft-grade, billet aluminum mounting accessories are accepted by most race-sanctioning bodies, and for good reason. Precision-machined to tight tolerances, and very secure, these gorgeous pieces are either refined to a blemish-free brushed finish, or polished to perfection.

Count on H3R Performance to be there when you need us most – and to look great in your ride until you do!

HalGuard™ premium fire extinguishers contain a clean extinguishing agent that rapidly turns into a gas, and quickly attacks fires involving flammable liquids without leaving any residue to clean up, or any danger of electric shock. Often used in aircraft, HalGuard™ extinguishers are ideal protection for race cars, hot rods and high tech computer equipment. Available in a variety of sizes, ranging from 1.4 lb. to 15.5 lb. units. Wheeled units are also available in 65 lb., and 150 lb., sizes. Rechargeable, made in the U.S.A. with high quality steel cylinders and all metal valve construction. Five year limited warranty. UL listed and rated.

Halotron® 1 is a registered trademark of American Pacific Corporation

MaxOut™ dry chemical fire extinguishers effectively smother flammable liquid fires without conducting electricity back to the operator – just the type of protection needed in an automotive environment (never use water on a flammable liquid or electrical fire). MaxOut™ extinguishers containing more than 1 lb. of agent are also rated for common combustibles like wood, paper, rubber, and some plastics. This added effectiveness makes them ideal for marine and home use as well. Rechargeable, made in the U.S.A. with high quality steel cylinders and all-metal valve construction. Six year limited warranty. UL listed and rated.
